STANDING IN FRONT OF A QUANSET HUT

To John Vasep:
With my very best wishes
2/2/45

Hallo:
Received your letter requesting a photo. The one I have on this little note is not very fancy but hope it serves the purpose.
The best to you.
Sincerely, Peggy Alford

1940S

Soldiers, Veterans, Patriots and Beloved Members of the Community

We are free today because citizens had enough courage to stand up to defend their community and country against threats. An inhabitant is one who lives in a place. A citizen is born there or has taken an oath to defend one's country. The word citizen, means a person owing allegiance to and entitled to the protection of a sovereign state. A patriot or loyalist is one who loves his or her country and supports its authority and interests. Persons who are not patriots are defined by the words traitor; betrayer, deserter, recreant; renegade foreigner, or non patriot. If a person served in a military action he is called a soldier.

There was a beautiful expensive granite memorial stone in Warren Union Cemetery which listed our Warren soldiers which was actually stolen without just cause with great disrespect to these soldiers most of which were buried in that cemetery. This was done by the officers of the 8 active member social clique "hysterical" society who took it upon themselves to steal this memorial and four others without a public hearing because they could not take credit for it. They found nothing wrong with these markers in a meeting that followed. They do not own the cemetery. These memorials were not their property. The memorials listed many soldiers who have no marker anywhere else. Now these Warren soldiers have no remembrance of them at all. There is lots of room in that cemetery for those memorials which were placed there to educate visitors and young people who no longer learn history in school. These non patriots also stole a memorial to those who died in attacks on our country including 9-11. They also stole Warren's only expensive and beautiful Unknown Soldier memorial right off of a grave. What great disrespect and a black eye for our city.

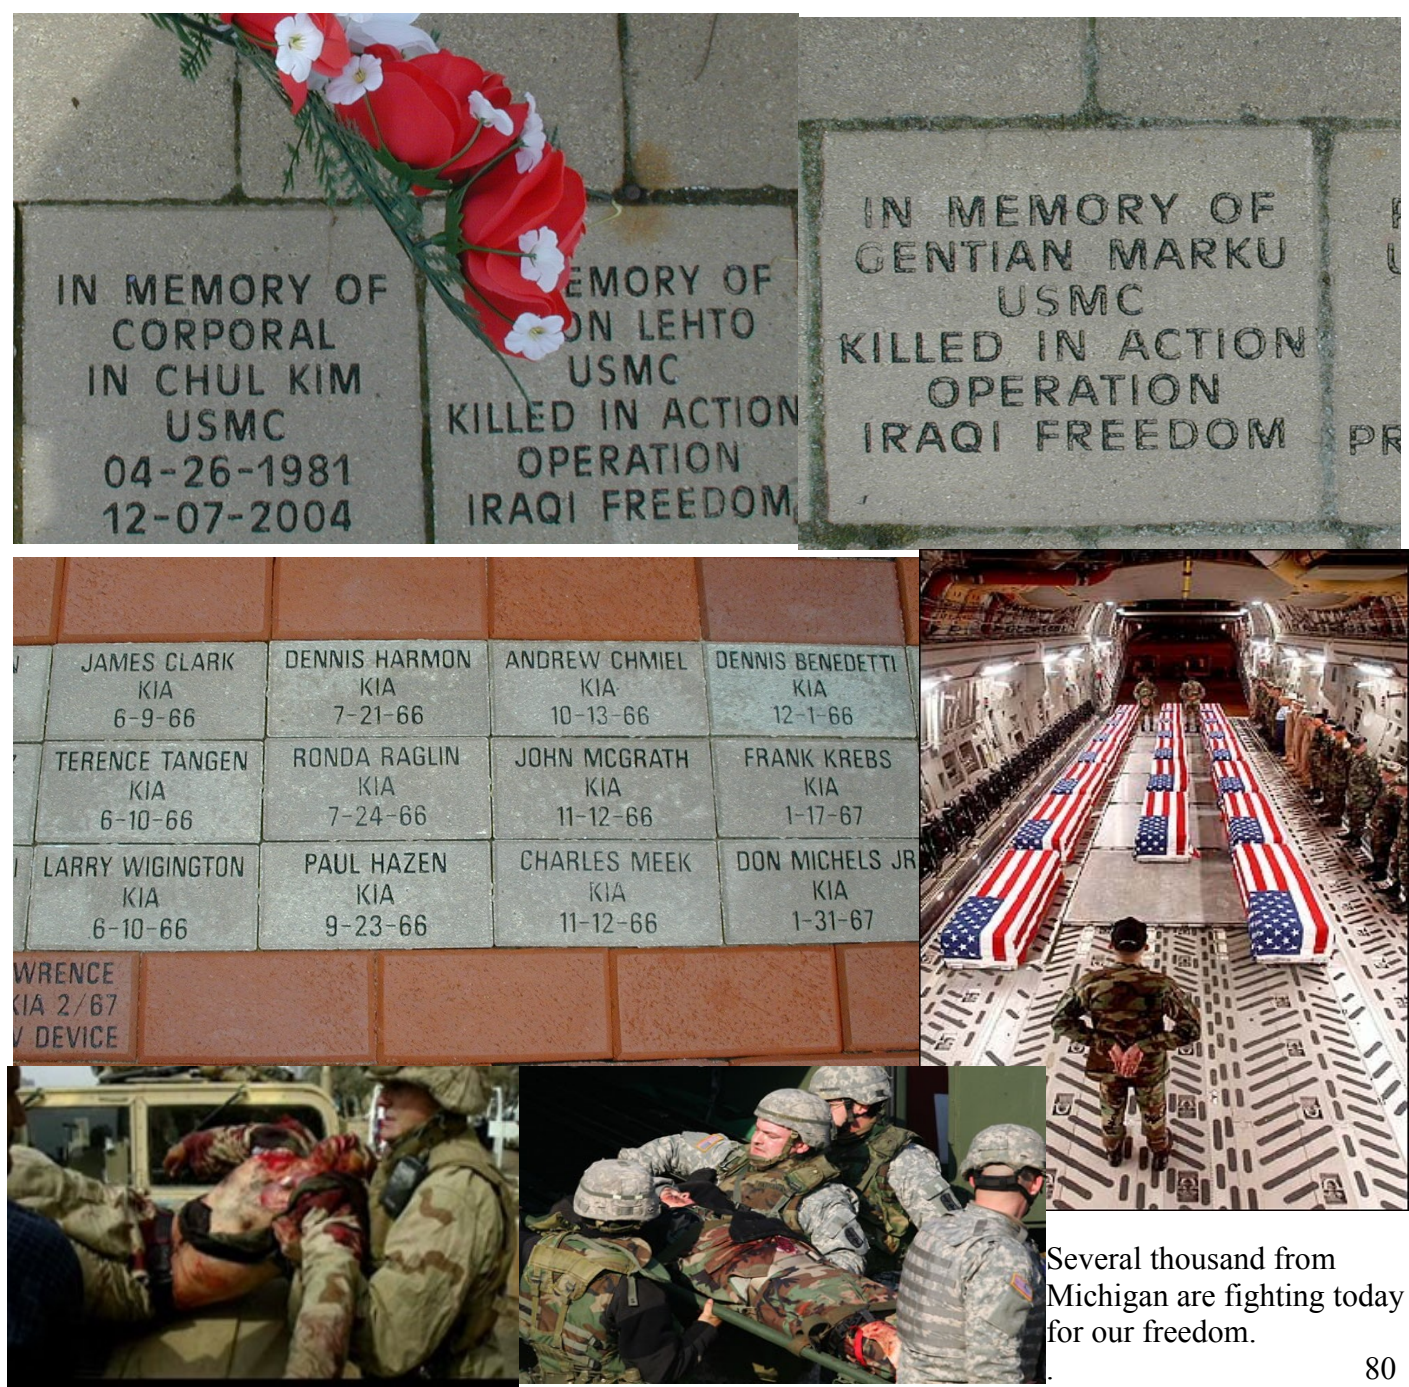

Warren Township's oldest soldier was Abel Warren who spent so much time helping our earliest settlers that they named the township after him. See his story earlier in this book. Abel was a hero in the war of 1812. Rev Abel Warren born August 3, 1789 and died Sept 5, 1862. His great grandfather came across on the Mayflower. His Grandfather Gideon Warren was a Lieutenant in the French and Indian Wars, joining in 1748. "He was one of Ethan Allen's Green Mountain Boys" in Vermont. He became a Colonel of the 5th Vermont Regiment in the Revolutionary War. He was wounded in the battle of Ticonderoga.

Abel Warren enlisted and served his country as a soldier in 1812 holding the rank of Sergeant. He was seriously wounded and taken prisoner at the battle of Queens town Heights. Having near death experiences in the war and as a British prisoner made him aware of the value of life. He became a Christian in 1817 and joined the Methodist church. In 1824 he and his wife Sarah became some of the first pioneers in Macomb County settling just north of Warren. He became a deacon and later an elder in the church and was the first man to preach in Macomb County, and "no doubt preached at more funerals and married more couples than any other man in the county of Macomb. As a pioneer local preacher, he was abundant in labors, traveling on foot at times twenty-four miles on the Sabbath and preaching three times, and that after a hard week's work on the farm, and preaching as regularly as any stationed, preacher, and spending most of the winters in special revival work, in Macomb, St Clair and Oakland Counties, in which hundreds were converted, thus helping to lay the basis on which rests the magnificent, moral and social superstructure of this beautiful region of country." From the History of Macomb County. Leeson 1882 p 739."

JOHN W KINGSCOTT 27 **SOLDIER** b England in 1850 Census. I placed a marker at his grave as his name was unreadable. I wonder how long it will be until this 8 active member social clique "hysterical" society rips that out. They won't get any money for it as it is just made of cement. Our soldiers are listed in my book "Our Veterans" and many details are at macombhistory.us

But how does one explain to the several families of those soldiers who died, and whose only memorial naming them was ripped out and stolen by people who were supposed to preserve our history? They have yet to give a satisfactory justification for stealing expensive decent memorials they do not own out of a cemetery they do not own. Remember nothing was found wrong with these memorials in a public meeting that followed. And what business have they to also rip out a 9-11 memorial, and also a memorial honoring what these men felt our flag stood for. They also stole an expensive granite memorial to children and our pioneers who have no markers which was donated without cost to the city. And now there other expensive granite markers missing. They have become the laughing stock of hundreds of history lovers and they have given our city a big black eye. What a disgraceful desecration of a cemetery and disrespecting of our soldiers. See more information on the cemetery page.

There are thousands of our brother and sister Americans who have paid with their lives for our Freedoms. Many had tremendous pain and suffering leading to their deaths. Some of us got medals. Many of us feel that it wasn't worth it and we would rather they hadn't died and we could skip the medal. Many who deserved medals did not get them and many died in the process their story never recorded. And the local school districts where supers are getting 100,000-200,000 a year graduate students who don't even know who we fought in WWII or why, what the revolutionary war was about or what is covered in the Bill of Rights. This little book is a small effort to educate folks. Read the parts about our wars and see how many died. I have made effort to include how many died from Michigan also. But what is important to know is that wars have not stopped. An observation of history shows you that wars continue to happen. We must keep informed, be vigilant and be prepared or we will lose our freedom and perhaps our lives. The USA is going down due to greed, neglect of education, ignorance and other causes including the pop and entertainment culture. Other countries are about to surpass us. Foreigners are ever increasing at a much more rapid rate in our country. The difference is that many of them will not really become Americans. Instead they wish to instill their anti-Western culture. Even our universities are packed with foreign students because most American students don't succeed in college. America needs to wake up. Following are a few tributes to our heroes.

Several thousand from Michigan are fighting today for our freedom.

Our Cemeteries

In the 1800s there were no grave stone makers in Warren **There were no funeral homes. The body was laid out at the family home for friends to see.** Sometimes a coffin was constructed but that depended if there were planks available and someone who had a saw and was skilled enough to make one. Many were buried without a casket or marker on the farm as there were few cemeteries around. Families often did not have money to pay for a cemetery lot. **Often several family members died within a short time due to diseases we now have cures for such as scarlet fever, cholera, diphtheria, typhoid fever, small pox, etc.** Both the 1854 St Clement and 1845 Warren Union cemeteries appear to be preceded by the Bidell-Green-Weier Indian Cemetery but no one knows and it is not important. This was located west of Bunert and North of Martin. Here is a foto.

During construction of Briarwood School a skull and other human bones were discovered. (Per Tri City Progress 4 14-1967) In May of 1969 children playing in the school playground discovered more human remains. Imagine the look of shock on the teachers face when they brought the remains into the classroom. One contractor dug a load of dirt for fill dirt and dropped it off on someone's property. The homeowner receiving the fill dirt saw human remains and called the police who contacted the contractor. Imagine asking for fill dirt and getting human remains dropped off in your driveway. The funeral director William Duross told historian Wesley Arnold that Theuts, Greens, Hessels, and Schoenhers were probably buried there. So it was for sure a pioneer cemetery.

Mt Olivet (opened in 1888) down Van Dyke, Mt. Elliott opened in 1841 but to farmers in Warren village that was a long trek with wagons especially if the weather was bad or in the Winter.

The St Clement Cemetery is located on Engleman east of Van Dyke. The first known recorded burial was in 1854.

Staff members of many cemeteries have stated that they have hundreds of children buried without markers. St Clement Cemetery is the sister pioneer cemetery to Warren Union Cemetery in Warren Michigan. Records show 451 child and 299 adult burials before 1898 of which only 28 markers now show a child burial. That gives a ratio of 1.5 child burials for each adult. There were 17 scattered years when there were about twice the children buried than adults. 5 years had about three times the child burials. One year had 12 times and one year 4 times. This is from their records and is verifiable.

One old caretaker admitted that there were a huge number of graves with no marker visible and that they actually had to probe with a rod before they dared dig a new grave. In the old days markers would fall down in the depression made when the old wood caskets caved in and in time were covered over. Many volunteer and underpaid mowers were pressed into service and the less markers the faster they could get the mowing done. St Clement had about 1,500 burials prior to 1943. The above is verifiable.

Looking at Warren's sister cemetery there were about 1.5 child burials per adult burial prior to 1900. The infant mortality rate back then was very high sometimes over 200 per 1000 per annum so this over years indicate a few hundred.

Old county death records of Warren show there are 500 registered child deaths per 1000 deaths average.

The sister cemetery with good records indicates 1500 per 1000.

And it is known that virtually no stillborns and very few babies were marked by stones.

Researchers have done the math of all of the above and say that there is high probability that hundreds of children are buried at Warren Union Cemetery without markers.

And we know that many adults in the very old families were buried there without markers.

A beautiful memorial was donated (without cost to the city) in memory of our pioneer pioneer families and children who were buried there and now have no markers. That stone was stolen officers of the 8 active member social clique "hysterical" society without just cause because in their minds this was an old folks cemetery and there are no markers for these folks and their children. Duh! They have no right to steal an expensive granite memorial which does not belong to them from a cemetery they don't own.

Most Cemeteries in the world including those of Macomb County Michigan have many unmarked graves. Many old ones like Millar (Miller/Cady's Corners) - Section 30 Metropolitan Parkway & Utica Rd, Clinton Township, have almost no readable stones left. (around 54 actual stones) We could also state the fact that most burials of past years were not in cemeteries at all rather were in locations close to the site of death and are virtually unmarked. In Europe catacombs abound underground with thousands of unmarked bones. I have been there and seen them. Macaber to say the least but true facts nevertheless. Creepy isn't it.

Warren Union Cemetery is located between the Red Run River and Chicago Road East of Ryan Road. Pioneer farmer Peter Gillette sold a parcel of land in 1845 to eighteen families for a burial ground.

It has 2600 graves inside the fenced area after subtracting aisles and drives. Studies indicate possible 1200-2600 total burials but no one alive knows.

Consider that the old section was considered full by 1945. Proof of that is in the fact that many of those old families had to buy plots in other cemeteries because their local lots were full, even if markers had not been placed on them.

Township records, newspaper articles and stories indicate that pauper burials were also done there.

If one looks at county death records 50% of the deaths were children in the old days prior to WWI.

Add to that the many many more stillborns and baby burials that were not recorded. An examination of county records shows that of the 150 stones with children's names only 12 were recorded.

Why Warren Union Cemetery may have hundreds of more burials than

stones now show. Consider that the original 18 families who had lots 10 feet by 30 **did not place stones.** Most had big families and they **usually filled up their lots** and had to buy additional lots here and elsewhere to accommodate the deaths from many diseases we now have cures for. Also consider that many stillborns and newborns were **buried on top of regular already used lots and were rarely marked.** Even now many families have baby graves without markers. Consider that **the older graves were most often not marked by stones at all** and that **the older part of the cemetery was considered full by 1945** and many families had to buy lots elsewhere. Consider that **there are 2600 graves** inside the currently fenced area even after subtracting aisles and drives and considerable more cemetery property outside of the current fence at the back. Consider that the “back” of the cemetery where many babies & paupers were buried extended much further than the now fenced in area and was destroyed by the 1950s Red Run project and by erosion since. The fence was erected in 1986. Families who suffered stillborn or baby deaths did not usually want a big funeral or a stone as there was a stigma about this. The family home served as the funeral home and most families just buried the remains in the cemetery quickly and privately and did not want a marker to remind them of a stillborn or sickly often unnamed baby which would prolong the sorrow of the guilt ridden grief stricken mother. **County Death records for Warren indicate 50% of the recorded deaths were children prior to WWI. The sister cemetery St Clement with good records shows 1.5 children buried for each adult with only about 6% of child deaths registered at the county.**

Also the infant mortality rate back then was very high approximately 200 per 1000 per annum. Many other old cemeteries have hundreds of now unmarked graves many of which are children. Figure of the 1000 burials in Warren Union Cemetery only 150 show children when county death records of Warren show there are 500 child deaths per 1000 deaths average. That indicates possibly 1,500 children most unmarked plus when one considers that **less than 6% were even registered** and considering the actual rate per the sister cemetery which is much higher, and also considering the mortality rate there are hundreds of additional unmarked burials. **Researchers have done the math of all of the above and say that there is high probability that hundreds of children and many adults are buried in Warren Union Cemetery without markers.** A beautiful memorial was donated in memory of the children and pioneers now without markers. That stone was stolen by officers of the 8 active member clique “Hysterical” Society because in their minds this was an old folks cemetery and there are no markers for these children. Duh! They did not even consider research findings or hold a public hearing. Many of us feel we should honor our Veterans but officers of the 8 active member social clique “Hysterical” Society stole **four soldier memorials out of this cemetery.** One was a marker that said “**Unknown Soldier**” off of a grave even though there is documentation that a soldier was buried there. **Another marker they stole accurately had the names of Warren men who for the most part are buried in this cemetery, many of which had no marker in the cemetery listing their name.** Now these men many of which died for our freedoms have no marker anywhere even listing their name. They **also stole a Memorial to all veterans and to those who died in attacks to our country including 9-11.** And at the public meeting that followed they did not find anything wrong with the memorials, they just said the families who donated them without cost to the city did not have their permission to donate them. So what! The memorials were donated to these men who died and have no marker. The Historical Society doesn't own the property. Those expensive memorials do not belong to them. They have no right to steal memorials donated by families to their loved ones. **They also stole a marker stating what these men felt our flag stood for, It said “Our flag stands for Liberty, Justice, free speech, Press, Maintain our Freedoms...”** A police report was filed. Since they were caught they now say they will dispose of them. It would be wrong to sell these memorials. We should **honor our soldiers not allow the only memorial naming them to be sold.** Those memorials were donated to honor our soldiers and to educate our young people who no longer learn history in school. Now these soldiers will be forgotten as this was the only memorial naming them. Many have no other marker anywhere. Us veterans had the courage to stand up and defend our freedom and way of life. Many gave everything they had including their lives often after great personal pain and suffering. This disrespectful act to our soldiers by the leadership of the 8 active member clique “Hysterical” Society gave our city a big black eye. Visit our Historical Gallery Monday evenings in the Warren Community Center on Arden, tell them what you think. Pick up a public flier about this group which notes the names of these officers who with their husbands are responsible for most doings. 83

Disagreement leads to removal of tombstones

By Gordon Wilczynski
Macomb Daily Staff Writer

Warren police were baffled earlier Thursday why someone would take five tombstones from the Warren Union Cemetery on Chicago Road.

Now they know. The missing stones result from a disagreement between a caregiver and the Warren Historical Society, police said.

But Detective Lt. Dan Beck was quick to point out that as soon as the missing stones were listed on The Macomb Daily's Internet page a woman who said she is a member of the historical society said she had the tombstones removed because cemetery caretaker Wesley Arnold had no authority to put them there.

"These people seem real nice, but we really don't know at this time who is right and if

Macomb Daily staff photo by David Posavetz

Cemetery caretaker Wesley Arnold looks at the spot where some of the tombstones were previously set.

anyone violated the law," Beck said. "The big thing is we know where the tombstones are now located."

The tombstones have little value to anyone other than families of Union soldiers who fought during the Civil War, according to Beck. He said police just started investigating the incident so they have very few details.

Beck said the caretaker

filed a complaint with police on Wednesday claiming someone who had no permission had taken five tombstones from the cemetery. Arnold, also a member of the Warren Historical commission, said the cemetery was owned by a Methodist church that abandoned it in the 1960s. The cemetery is now private and operated by St. Paul United Church of

Christ and the historical society.

He said the people who work at the church are volunteers and don't get paid.

Arnold provided Warren police with a description of the tombstones. Beck said the tombstones were taken sometime between 10 a.m. Tuesday and 9 p.m. Wednesday.

He valued the grave markers at \$4,000 and he believes names of the deceased

could be removed and the tombstones resold.

"The cemetery has documented where every tombstone was located and a description of the inscription on each of them," Beck said.

The inscription on one tombstone reads, "Memorial to all veterans. We honor your service. Remember those who died on 9-11 and other attacks."

Another inscription said, "In memory of the hundreds of children and adults buried in this cemetery who have no marker." Another said, "Warren veterans partial list" and has the names of 30 deceased soldiers.

One stone said: "Our flag stands for liberty, justice, free speech, press, maintain our freedoms. Stop the suffering and dying. Create ample for all."

Arnold said 1,000 people have been buried in the cemetery since 1845. He said most are veterans from the Civil War era.

He also said many of the deceased buried in the cemetery are children. He said that around 1900 more than

50 percent of the deaths in the area were of children.

"The children had diseases such as scarlet fever, small pox, diphtheria and others," Arnold said. "Many of the kids died from spoiled milk and spoiled food because of the lack of refrigeration."

First there was no disagreement, no public hearing, no meeting. The caretaker does not control who places stones there. But five memorials had been secretly stolen so a police report was made. The memorials had been anonymously donated probably by veterans families from out of town. The above historian had spent a lot of time here doing research (more than anyone else) and in the process met many visitors and suggested to them that we should have a veterans memorial naming our veterans and a children's-pioneer memorial. Obviously they donated these memorials to our soldiers and pioneers. There is ample room for them here and they were causing no harm. It was wrong for Warren Historical Society vigilantes to steal memorials they do not own from a cemetery they do not own. At the following Warren Historical Commission meeting they found nothing wrong with them. This was a disrespectful act against our soldiers and pioneers. Now several of these men have no marker at all. Young people are no longer taught history. The memorial reminding them of attacks on our country has been stolen. Wouldn't it be a shame if they trash these. What great disrespect to those who died.

Dear old Golden Rule days

Herman Weier, left, and Robert Rinke watch as John Salera greases the fittings of a bell before it is installed as a finishing touch in the restoration of the one-room Bunert School in Warren. See photo story on Page 14.

Education was better in old days even with overcrowded class rooms and lack of good books. Students learned better and learned more than today. They did math in their heads learned history, geography, civics. Knew Bill of Rights, Constitution. Take the 6th grade test on macombhistory.us if in doubt. Page 85

Schools

Schools were non existent for most of the history of our area. People could not read or write. Children had to work for the family to survive. They learned survival skills from their parents. Women taught the children. When a boy was old enough he would go with his father to learn and work. After 1840 a few home schools were formed and children taught in local homes. Some families allowed visiting teachers to sleep in and gave them food in exchange for work and "schooling" their children. A schoolmaster was supposed to be able to make quill pens and be able to defeat the largest boy in the class in a fist fight and maintain discipline. The birch rod was an indispensable part of his equipment and any pupil who misbehaved would feel its sting. Women school teachers had to be courageous to teach. (Willis F Dunbar 284) Women were also used because they would work for less money.

The first known school in Warren was a split log school house the farmers built near Creek Road (Chicago Road) and Ryan roads. This school house was also used for a church for both the Methodist and Baptist groups. This log building also had split log benches. Usually there were in these log schools boards laid across pegs driven into the walls and used for desks. Rather uncomfortable to say the least. Early log schools usually had just a fireplace rather than a stove so it was hot by the fire and cold away from it. Teachers were often paid a sum per each pupil taught. There were often few if any good books. Church buildings were sometimes used for schools.

West school was built in **1894** to the south on Ryan Road. That burned down in 1931. A newer better red brick building was built to the south on Ryan Road and is still standing.

The **North school built in 1859** was also called the Berz school. It was located on the West side of Mound just South of 15 Mile Road. It became part of the Warren Consolidated School District in 1941, It was sold in August of 1952.

The South school was built in 1866. It was located on the East side of Mound Road between 13 Mile Road and 12 Mile Road. There was also an **East School built before 1875** on Chicago Road between Van Dyke and Mound.

The **Leonard Schemm School** Nine mile at Hoover were one room school.

The 1865 **Jeremiah O'Leary School** at Bunert & Frazo burned about 1875.

Probably leading August and Mine Bunert to donate land so local children would be closer at the **Bunert One Room School built in 1875.** It housed students in grades 1-8. A larger two room school was built in 1927.

The 1869 **Plunkett school** named after Mortimer Plunkett who taught there 1900-1916 after Frank Bacon. Mort had a farm in southern Van Dyke. Note school was in use before school district formed.

These had grades 1-8. St Clement School before 1868. **Murthum High** was built in 1926. **Busch High** 1921. Students could attend either. Schools with two or more rooms followed. **Lincoln** 1921. **Harding** 1925. **Ellis** 1926. **Groesbeck, Mckinley, Macomb Park** 1928. **Ladd** 1941, **Victory** 1942. In 1944 a new 6 room school was built and named **Charwood** after Betty Chargo and Irene Woodward. **Miller** 1950. **Peck** 1961 **CLHS** 1962. **Flynn** 1973. Kennedy, Carlson, Washington, Roose, Wolf, Crothers, in 1960s

Teacher's Contract usually went as follows: **The teacher may not have company of men, Must be home by 8 pm, Must not loiter in ice-cream stores, May not leave town without permission, May not smoke or drink, May not ride in a carriage or auto with any man, Must not dress in bright colors, Must wear at least two petticoats, No makeup, Must sweep and scrub classroom floor, Must build wood fire at 7 am, Must not get married. Must be able to survive on \$75 a month and buy all children's school supplies out of that also.** On many occasions old timers outperformed recent high school graduates on math geography, history, many long years after their simple 8 grades of education ended. My grandfather in his eighties helped me in doing square roots in high school. If you doubt take the 6th grade test on the following website. More information on schools is at macombhistory.us

COUNTY COMMISSIONER OF SCHOOLS

MACOMB COMMUNITY COLLEGE

Historian

Prof Wesley Edward Arnold

The young man below was one of many volunteers who worked to move and save the Bunert One Room School. But help me find out who he was.

Above Bunert School restoration. 16 mm projector and slide shows are now replaced by electronic images. High school students should be required to take exit exams to prove if they have earned a diploma. They should also be given vocational training and attend a summer boot camp

and job training camp for additional training to get them ready to work in an occupation to support themselves. 1880 graduates were proud of their 8th grade diploma because they earned it. They had to take a difficult final exam that proved they had learned. Some had learned enough to enter an occupation. Now students are graduated who can't read, do basic math, don't know where cities and capitals are in the USA and world, can't find the USA on a blank map of the world, know little about history or government or food poisoning. They can't tell what the revolutionary war was or why we fought it and the same with WWII. They don't know much about the Constitution or Bill of Rights. They can't make change for a \$20 dollar bill without a calculator. Many can't even fill out a job application properly. And virtually none are prepared to work in a trade or profession. Worse many have no purpose in life and little moral values, do not have "the American Ethic and work ethic." In fact many think we should support them and expect handouts as their "right." True not all of our young folks are like this but too many are. We need to get together as a community and correct this situation before our community disintegrates. Schools should be utilized by the community year around for community activities.

Our Libraries

Both Center Line and Warren public libraries were started when local citizens got together collected books

and found a place to place them. In Center Line a group of men formed the Men's Club of Center Line. This was in 1928 before there were any Rotary or Lions clubs etc. They accumulated about 500 volumes. The library was housed in the basement of the Center Line Community Church which later became the Presbyterian Church. It was moved later to several stores then to the above pictured Center Line recreation building. Finally it moved to its present building.

Warren's first library came about at the Joiner House which was built in 1895 by Robert and Eliza Joiner. In 1935 this is where Warren's first library was located. (in the front parlor) Three women (Miss Elkin, Mrs. Parrott and Mrs. Zorn) formed the Warren Community Library.

They got 516 books donated and borrowed another 200 from the state. Chris Anna Zorn donated the use of her Sunday parlor for the use of the library. In 1936 the village council accepted the library as an official village institution. By 1940 it had moved to larger quarters twice and grown to a collection of 5,000 books. When Warren became a city a master library plan was made which dictated that a neighborhood library should be no farther than 1 ½ miles from any residence so that children would have access to them. Center line covered the middle area. Whitman the NE corner, Guest the SE corner, Burnette branch the Southern middle, Busch the SW corner and Miller the NW corner. A main Library was built and placed at the city hall. Due to funding cuts the Guest branch and Whitman were closed and Miller moved to the Community Center building just west of mound Road north of Chicago Road. Many residents, teachers and those in the with educational knowledge still feel that we need neighborhood branches to serve the younger children, This issue involves funding and the community's will to educate its children. See macombhistory.us for more history on each branch library.

In 2011 the Warren library has over **267,800 items**. Center Line Public library has 40,000 and Macomb College over 143,000 items. These libraries also have electronic media and access to internet based information and databases. This means that the patron has much better access to the knowledge that has been published than in the past. These libraries also include a lot of entertainment media such as common movies such as those produced for TV which are lacking in scholastic and moral content but are what the public wants.

There is a great increase in electronic books, electronic media and online information. Libraries will always hold historical books and materials but public libraries will someday include a computer capable of finding and playing back thru audio visual and printed modes all of the published knowledge of mankind. We should make access to the knowledge of mankind available to everyone. We will still need our public libraries to serve children and to provide resources to our citizens. Not everything is or will be on the Internet. Paper books may decline in numbers to an extent but they will still be needed and used for many years. To those who fought the millage to keep our library open and said that there is no need for them we educators can find hundreds of examples of books and information that will not be found on the internet. And for children there is still no substitute for curling up with a good book.

Libraries and schools should make available **Virtual reality (virtuality)** learning environments (3D Goggles, Stereo Head Phones) that can simulate full screen 3d Imax screens with stereo sound for student learning. How better for a student to learn for example about dinosaurs than to go on a virtual field trip to see hear and observe them. All this could be done with goggles and stereo head phones plugged into an inexpensive winbook computer. This combination can also replace heavy expensive textbooks children have had to lug to and from school. Schools should place learning materials on the school website and children can learn at their own pace both at home and at school.

A Husking bee is where folks got together to take the outer layers of leaves off of the corn and to have a good time with their friends and neighbors. What they did not get husked had to be done during winter evenings around the fire. It sometimes happened that one would meet ones future spouse at a bee.

Figures that talk for the Waterloo Boy Kerosene Tractor

Operates
10 hours
Under Full Load
on
18 Gallons
Cheap
Kerosene

To make a tractor economical in operation requires something more than just being a kerosene burner. It must develop the same power from one gallon of cheap kerosene, that is ordinarily developed from one gallon of high priced gasoline.

Our Patent Kerosene Burning Device is different from any other on the market. Transforms 8-cent kerosene into an expensive gas more powerful than 16 or 20-cent gasoline—no smoke, no soot, no waste.

What Waterloo Boy Fuel Economy Means to You in One Day's Work

18 gallons gasoline at 18c	\$3.24
18 gallons kerosene at 8c	1.44
Waterloo Boy daily saving in fuel	\$1.80
Or \$180.00 in 100 working days a year	

We have distributing stations at all important points. You can rely upon prompt and efficient service at all times.

The Waterloo Boy Tractor meets every power demand on the farm, draw bar or belt. Reliable, easy to operate and control, strongly built, backed by a positive guarantee from a responsible manufacturer, sells at a low price.

HAMMOND'S SARSAPARILLA.

Guaranteed the Best
on the Market.

There is no other Sarsaparilla made that will
compare with it.

Our price, per large bottle, 59c; per doz., \$6.00.
Never retails at less than \$1.00.

Dr. Hammond's Sarsaparilla combines in an agreeable form the medicinal properties of the most approved alterative and blood purifying remedies of the vegetable kingdom. Dr. Hammond's Sarsaparilla will not cure everything, but the fact that on the purity and vitality of the blood depends the vigor and health of the whole system, and that disease of various kinds is often only the sign that nature is trying to remove the disturbing cause, lead to the conclusion that a remedy which gives life and vigor to the blood and eradicates scrofula and other impurities, as this preparation undoubtedly does, must cure and prevent many diseases. Hence the field of its usefulness is an endless one, and we are warranted in recommending it for all derangements caused by an unnatural state of the blood.

FOR SCROFULA. Dr. Hammond's Sarsaparilla is the greatest known remedy for scrofula, and there is no other disease that is so general among our population. ALMOST EVERY INDIVIDUAL HAS THIS LATENT POISON COUR-
ING THE VEINS. Its alarming fatality is not realized because consump-

a Warren Steel Mill

Above the last working sawmill was the Weier Sawmill on Bunert. We loved our ice cream parlors. As years went by new businesses with new owners replaced old businesses. Dodge city replaced the old steel mill above. Kroger became BiLo and that was replaced by a strip mall.

Thomas Jefferson wrote the Declaration of Independence served our country in many high offices and founded a university. **Thomas Jefferson knew much about government because he himself studied the previous failed attempts at government.** He understood actual history, and the nature of man. That happens to be way more than what most understand today. Jefferson really knew his stuff. It is worth noting here a few things he had to say. John F. Kennedy held a dinner in the white House for a group of the brightest minds in the nation at that time. He made this statement: "This is perhaps the assembly of the most intelligence ever to gather at one time in the White House with the exception of when Thomas Jefferson dined alone."

Here are a few quotes from Thomas Jefferson :

If a nation expects to be ignorant and free, in a state of civilization, it expects what never was and never will be.

The democracy will cease to exist when you take away from those who are willing to work and give to those who would not.

Thomas Jefferson said in 1802: **I believe that banking institutions are more dangerous to our liberties than standing armies.** If the American people ever allow private banks to control the issue of their currency, first by inflation, then by deflation, the banks and corporations that will grow up around the banks will deprive the people of all property - until their children wake-up homeless on the continent their fathers conquered.

My reading of history convinces me that **most bad government results from too much government.**

No free man shall ever be debarred the use of arms.

The strongest reason for the people to retain the right to keep and bear arms is, as a last resort, to protect themselves against tyranny in government.

All tyranny needs to gain a foothold is for people of good conscience to remain silent.

For a people who are free, and who mean to remain so, a well-organized and armed militia is their best security.

The care of human life and happiness, and not their destruction, is the first and only object of good government.

It is incumbent on every generation to pay its own debts as it goes. A principle which if acted on would save one-half the wars of the world.

I predict future happiness for Americans if they can prevent the government from wasting the labors of the people under the pretense of taking care of them.

We hold these truths to be self-evident: that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty, and the pursuit of happiness.

A Bill of Rights is what the people are entitled to against every government, and what no just government should refuse, or rest on inference.

History, in general, only informs us of what bad government is.

A wise and frugal Government, which shall restrain men from injuring one another, which shall leave them otherwise free to regulate their own pursuits of industry and improvement, and shall not take from the mouth of labor the bread it has earned. This is the sum of good government..

All, too, will bear in mind this sacred principle, that though the will of the majority is in all cases to prevail, that will to be rightful must be reasonable; that the minority possess their equal rights, which equal law must protect, and to violate would be oppression.

Educate and inform the whole mass of the people... They are the only sure reliance for the preservation of our liberty.

Every citizen should be a soldier. This was the case with the Greeks and Romans, and must be that of every free state.

Thomas Jefferson 1

I was bold in the pursuit of knowledge, never fearing to follow truth and reason to whatever results they led, and bearding every authority which stood in their way.

If Congress errs in too much talking, how can it be otherwise in a body to which the people send one hundred and fifty lawyers, whose trade it is to question everything, yield nothing, and talk by the hour?

Every government degenerates when trusted to the rulers of the people alone. The people themselves are its only safe depositories.

Experience hath shewn, that even under the best forms of government those entrusted with power have, in time, and by slow operations, perverted it into tyranny.

Experience demands that man is the only animal which devours his own kind, for I can apply no milder term to the general prey of the rich on the poor.

He who knows best knows how little he knows. Be polite to all, but intimate with few.

I am an Epicurean. I consider the genuine (not the imputed) doctrines of Epicurus as containing everything rational in moral philosophy which Greek and Roman leave to us.

I believe that every human mind feels pleasure in doing good to another.

I hope we shall crush in its birth the aristocracy of our monied corporations which dare already to challenge our government to a trial by strength, and bid defiance to the laws of our country.

I know of no safe depository of the ultimate powers of the society but the people themselves; and if we think them not enlightened enough to exercise their control with a wholesome discretion, the remedy is not to take it from them but to inform their discretion.

I like the dreams of the future better than the history of the past.

Leave no authority existing not responsible to the people.

It is in our lives and not our words that our religion must be read.

No occupation is so delightful as the culture of the earth, and no culture comparable to that of the garden.

Rightful liberty is unobstructed action according to our will within limits drawn around us by the equal rights of others.

That government is the strongest of which every man feels himself a part.

The constitutions of most of our States assert that all power is inherent in the people; that... it is their right and duty to be at all times armed. No freeman shall be debarred the use of arms.

When the people fear the government, there is tyranny. When the government fears the people, there is liberty.

Nothing gives one person so much advantage over another as to remain always cool and unruffled under all circumstances. When angry count to ten before you speak. If very angry, count to one hundred.

One man with courage is a majority. One travels more usefully when alone, because he reflects more.

Only aim to do your duty, and mankind will give you credit where you fail.

When we get piled upon one another in large cities, we shall become as corrupt as Europe. Commerce with all nations, alliance with none, should be our motto.

When you reach the end of your rope, tie a knot in it and hang on.

OLD SAYINGS 1

Franklin's Maxims:

Silence. Speak only what will benefit others or yourself.

Order. Let all things have their places. Let each part of your business have its time.

Resolution. Resolve to perform what you ought. Perform without fail what you resolve.

Frugality. Make no expense but to do good to others or yourself; that is; waste nothing.

Industry. Lose no time. Be always employed in something useful. Cut off all unnecessary actions.

Cleanliness. Tolerate no uncleanness in body, clothes or habitation.

Tranquility. Be not disturbed at accidents, common or unavoidable, or at trifles.

Humility. Imitate Jesus, Socrates and Confucius.

Know yourself. Ask why. Think! *Don't do to others what you don't want done to yourself.*

DO ONLY AS YOU WANT TO BE DONE TO. *Better to light a candle than to curse the darkness.*

CHILDREN LEARN WHAT THEY LIVE

If a child lives with criticism, he learns to condemn.

If a child lives with hostility, he learns to fight.

If a child lives with ridicule, he learns to be shy.

If a child lives with shame, he learns to feel guilty.

If a child lives with tolerance, he learns to be patient.

If a child lives with encouragement, he learns confidence.

If a child lives with praise, he learns to appreciate.

If a child lives with fairness, he learns justice.

If a child lives with security, he learns to have faith.

If a child lives with approval, he learns to like himself.

If a child lives with acceptance & friendship, he learns to find love in the world.

If a child lives with hate, he learns to hate.

If a child lives with violence, he learns to be violent.

If a child lives with love, he learns to love. God is Love.

AS A PERSON THINKS SO THEY ARE. ONES CHARACTER IS THE SUM OF ONES THOUGHTS.

TO BE A SUCCESS THINK SUCCESS. **I expect to pass thru this world but once. Any good, therefore, that I can do or any kindness I can show to any other being let me do it now. Let me not defer nor neglect it, for I shall not pass this way again.**

This is the. Beginning of a new day. God **has given me** this day to use as I will. I can waste it, or use it for good purpose. But what I do with this day is **important**. Because I have exchanged one day of my life for it. When tomorrow comes, today will **be gone forever**. I hope I will not regret the price I paid for it.

Wisdom stands the test of time. TO BE A SUCCESS **THINK SUCCESS!**

Ideas To Help You to be a Success. To test ideas ask: Is it the right thing to do? Is it fair to all?

Take time to: Think, Set Goals, Make a Plan to Reach Your goals, Work Your Plan, Reevaluate, Succeed.

The best way to get something done, is to begin. If it is to be it's up to me.

He who exercises government by means of his virtue may be compared to the north polar star, which keeps its place and all the stars turn towards it.

He who learns but does not think, is lost! He who thinks but does not learn is in great danger. (Confucius). This historian would substitute the words "a culture" for he.

Old Sayings 2

An oppressive government is more to be feared than a tiger.

Better a diamond with a flaw than a pebble without.

By three methods we may learn wisdom: First, by reflection, which is noblest; Second, by imitation, which is easiest; and third by experience, which is the bitterest.

Choose a job you love, and you will never have to work a day in your life.

Do not impose on others what you yourself do not desire.

Everything has beauty, but not everyone sees it.

Faced with what is right, to leave it undone shows a lack of courage.

If I am walking with two other men, each of them will serve as my teacher. I will pick out the good points of the one and imitate them, and the bad points of the other and correct them in myself.

If you think in terms of a year, plant a seed; if in terms of ten years, plant trees; if in terms of 100 years, teach the people.

In a country well governed, poverty is something to be ashamed of. In a country badly governed, wealth is something to be ashamed of.

Learning without thought is labor lost; thought without learning is perilous.

Real knowledge is to know the extent of one's ignorance.

Study the past, if you would divine the future.

Success depends upon previous preparation, and without such preparation there is sure to be failure.

To practice five things under all circumstances constitutes perfect virtue; these five are gravity, generosity of soul, sincerity, earnestness, and kindness.

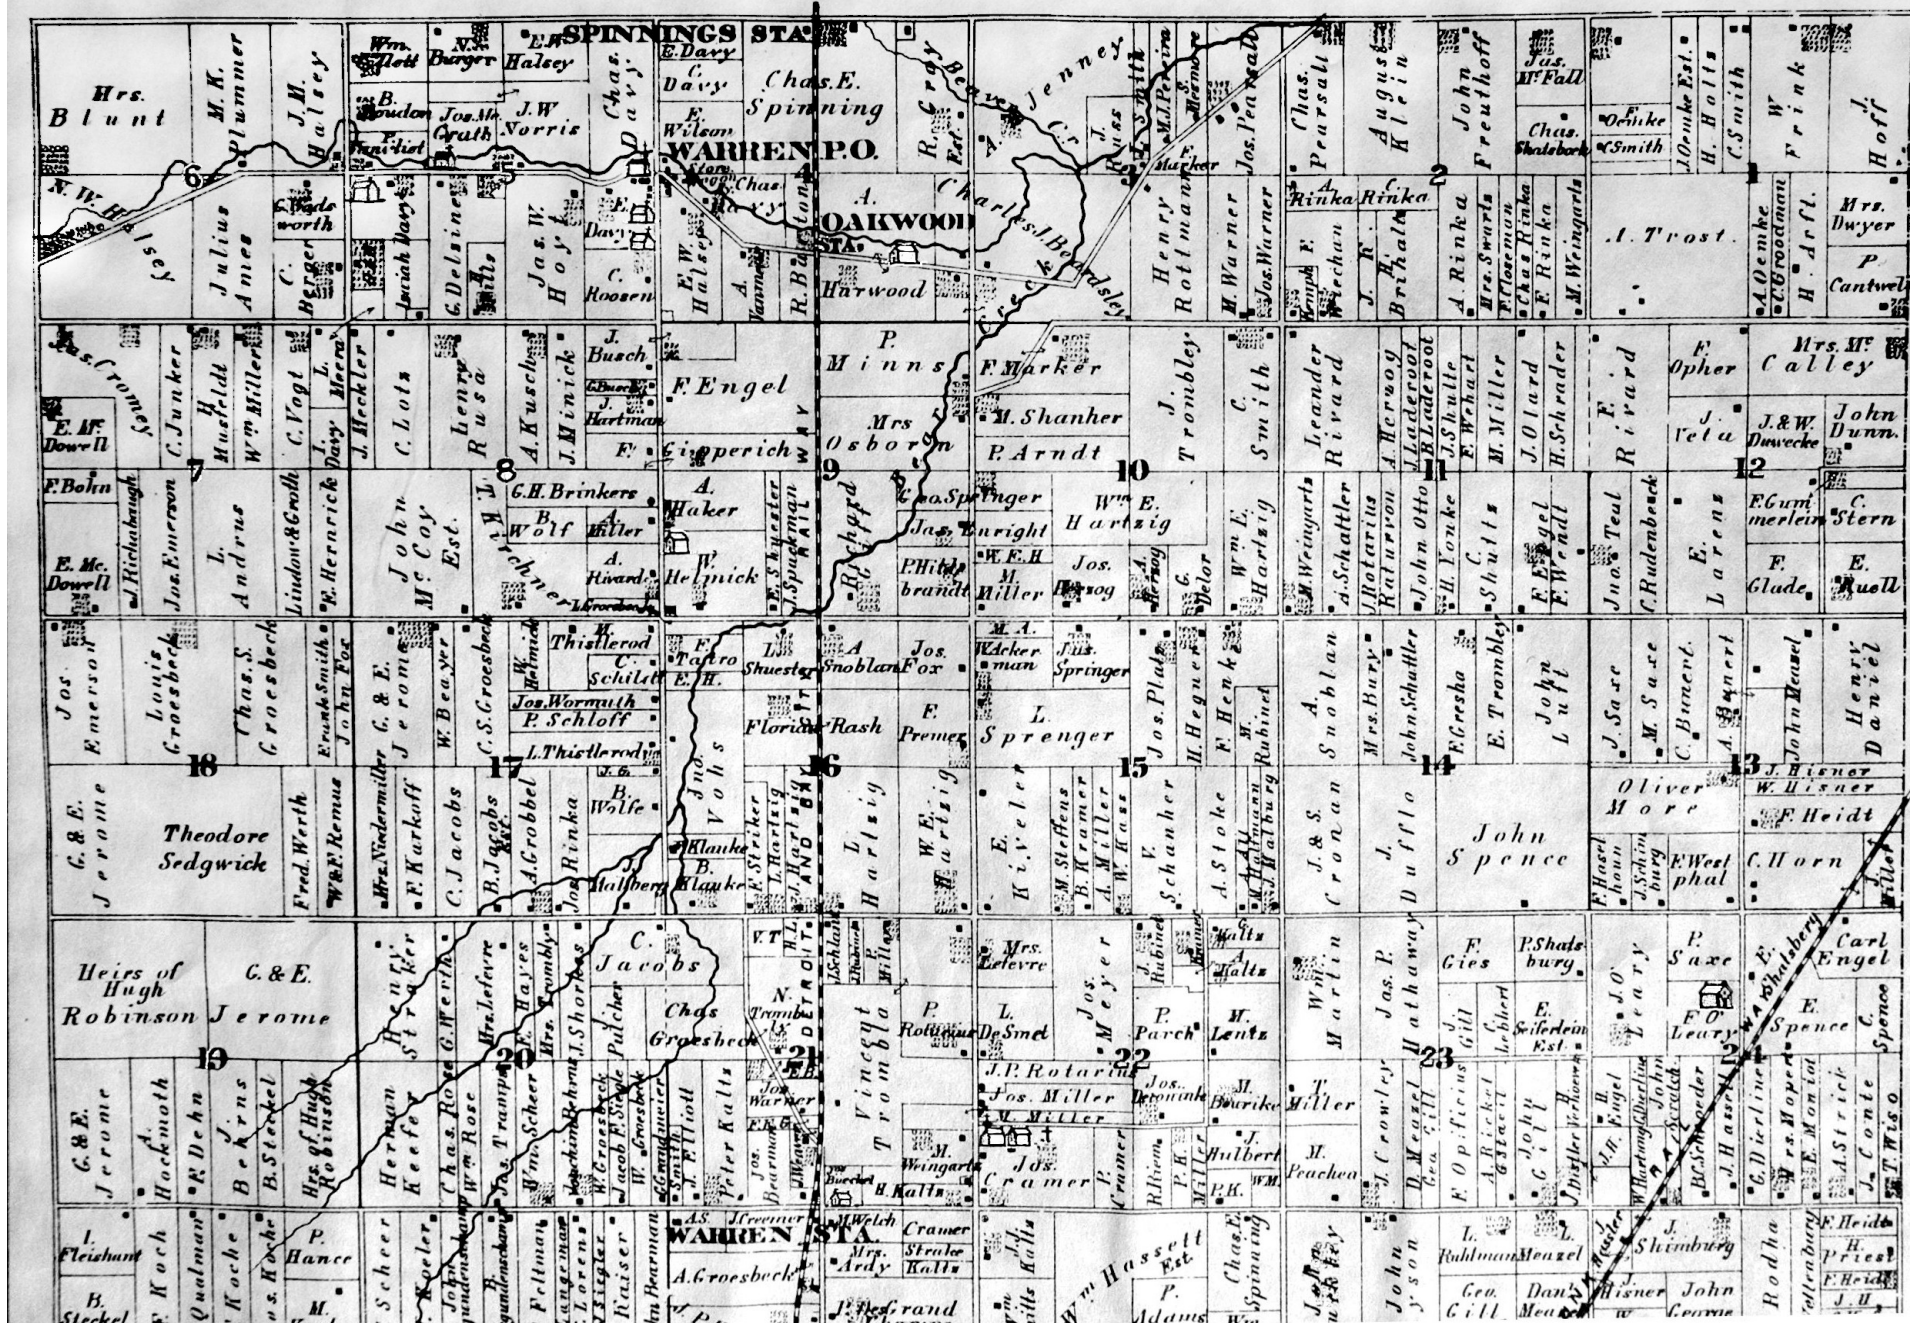

To see the right and not to do it is cowardice.

What you do not want done to yourself, do not do to others.

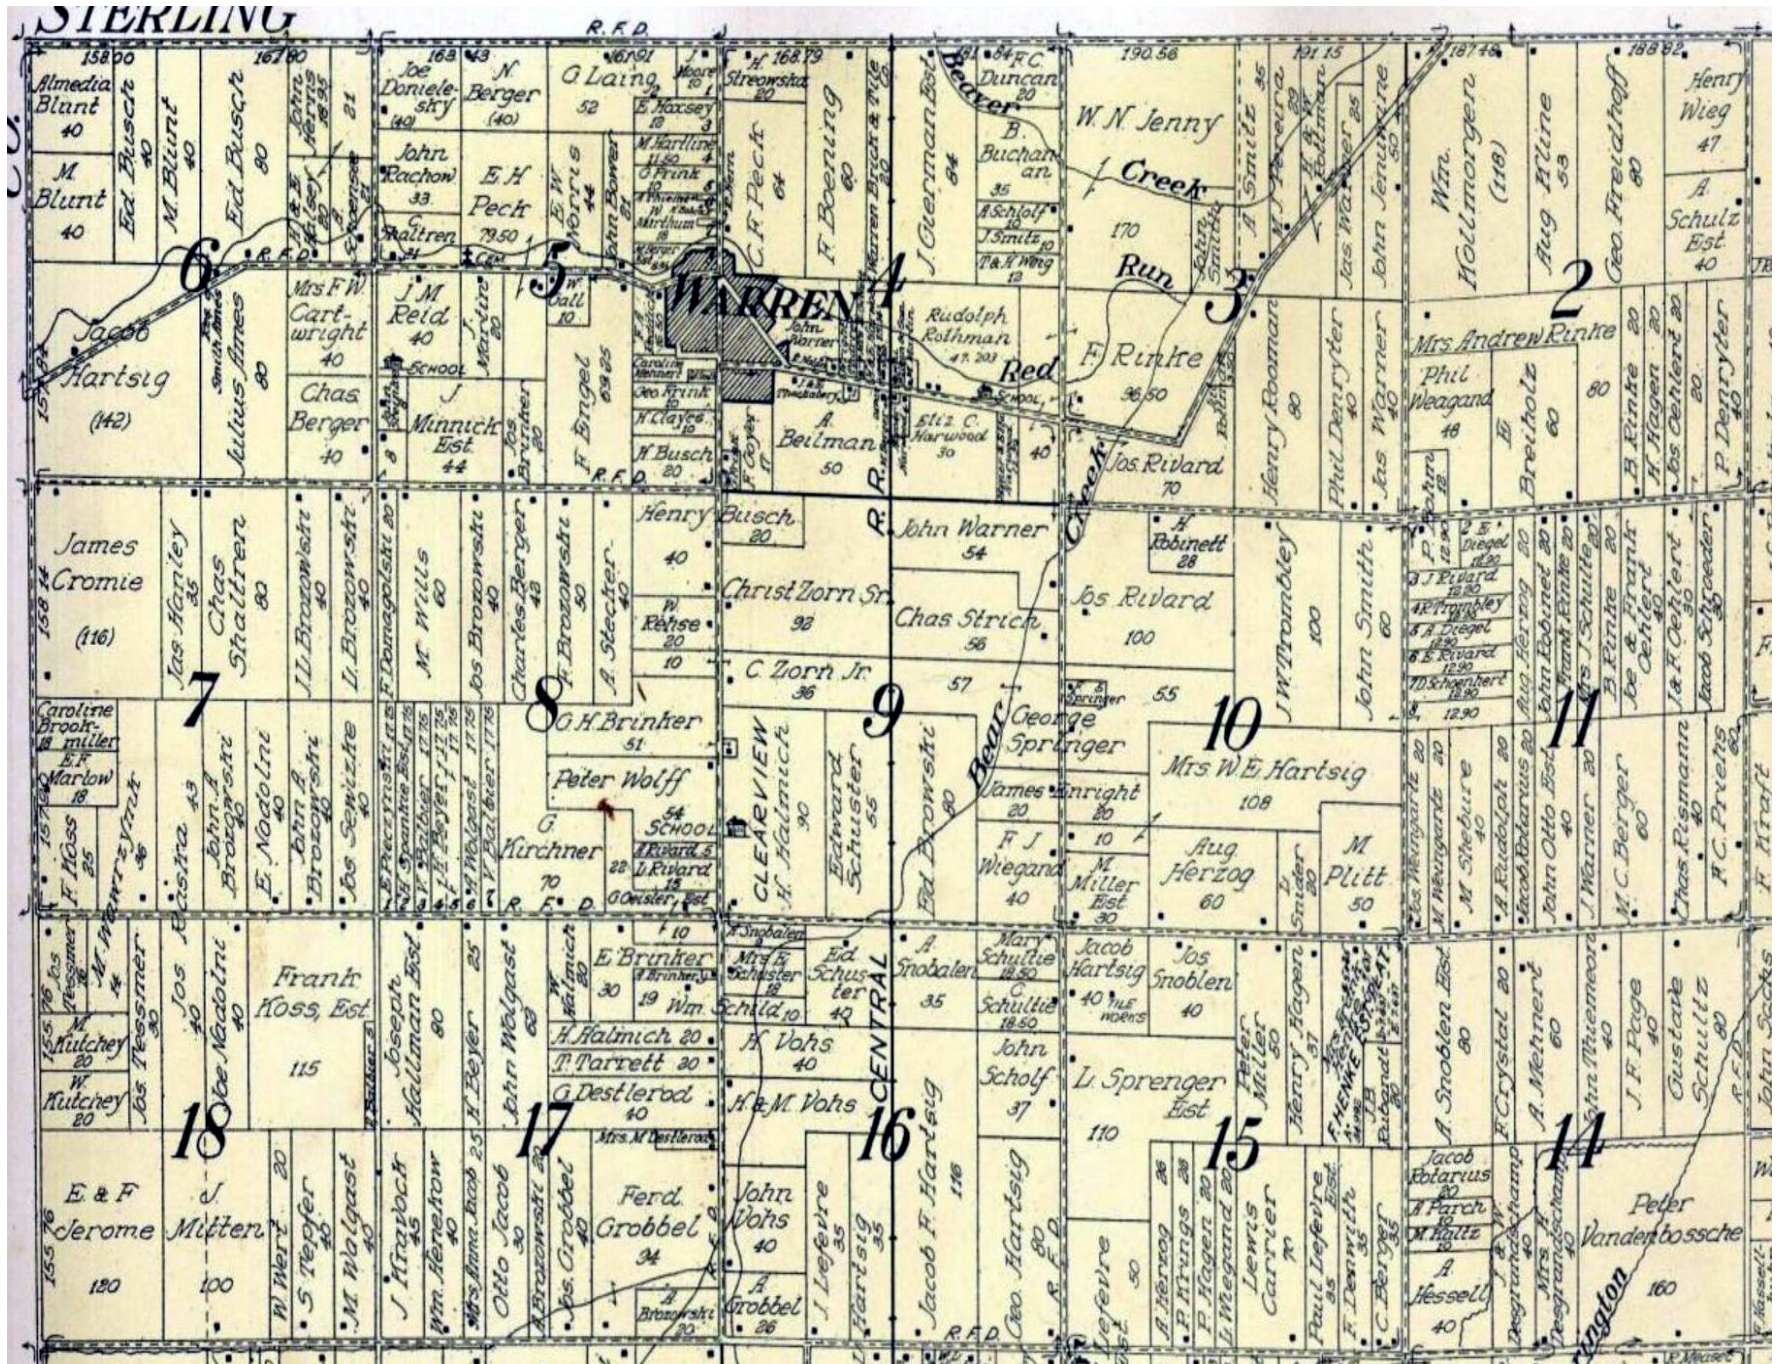

When anger rises, think of the consequences.

When it is obvious that the goals cannot be reached, don't adjust the goals, adjust the action steps.

Wisdom, compassion, and courage are the three universally recognized moral qualities of men. (Confucius)

101 year old woman evicted in foreclosure after living in house for almost 60 years Assoc Press
Detroit Sept 14, 2011

States News release 14 July 2011

Congressman John Yarmuth called on House Oversight and Government Reform Committee to take immediate steps to investigate illegal foreclosures on active duty members of the military. During a hearing of the committee featuring

testimony from consumer advocate Dr. Elizabeth Warren, Congressman Yarmuth told the story of

Chief Warrant Officer Charles Pickett. While serving in Operation Iraqi Freedom, Bank of America attempted to illegally foreclose on CWO Pickett's home three times, even though he was current on his mortgage. Pickett was ultimately successful in halting foreclosure, though his credit was damaged and a line of credit he had previously obtained was closed. It is estimated that **thousands of members of the military have illegally faced foreclosure or have been overcharged by lenders.** Earlier this year, JP Morgan Chase, Morgan Stanley, and Bank of America paid millions in settlements to thousands of servicemembers who were wrongfully foreclosed on. Congress bails out Wall Street \$700 Billion of taxpayers money

August 3, 2011 A new study released today by the Center for Media and Democracy (CMD) shows that, despite rosy statements about the bailout's impending successful conclusion from federal government officials, **\$1.5 trillion** of the \$4.8 trillion in federal bailout funds are **still outstanding**.

This massive effort is in stark contrast to the mere \$2 billion the Treasury has spent to directly help homeowners stay in their homes. With housing prices continuing to falter and the **United States approaching 9.2 million foreclosure filings** since the beginning of 2008, HAMP can be described as nothing less than an abject failure. **MUCH OF THIS IS BECAUSE BANKS ARE REFUSING TO HELP CUSTOMERS AND ARE PROFITING BECAUSE OF THE BAILOUT WHILE FORCING PEOPLE OUT OF THEIR HOMES.**

CONGRESS LIED TO US

The bill was supposed to be 700 billion but now it is discovered that they **actually spent much more** and on top of that borrowed the money from China and now Americans are paying interest on these billions. As a result the USA is actually now financing China's military.

But the **real killer is that the US National Debt is now over 15 Trillion dollars**. That is \$133,731 per each taxpayer. And worse the interest we are paying to rich bankers is 3.7 trillion dollars. No wonder the bankers are rich. And most of them pay very little taxes. Congress has **WASTED OUR MONEY** and gone into dept to foreign bankers.

EXECUTIVE PAID 1 MILLION WITH OUR MONEY

A Securities and Exchange Commission report that showed **AIG executive David Herzog having received upwards of a \$1 million bonus**. Nov 2008. This was with our taxpayer money.

\$86,000 FOR HUNTING TRIP

AIG executives took **\$86,000 of taxpayer money for an English hunting trip to kill rabbits**.

\$440,000 for a week-long retreat

Then in Sept 2008 AIG spent \$440,000 for a week-long retreat at a lavish California resort. Meanwhile they are throwing families out of their homes and the government is paying them to do that with taxpayer money.

BANKERS GETTING BIG BONUSES

Other bank executives of other banks were also receiving multiple thousand dollar bonuses. with taxpayer money and most rich bankers pay very little in taxes.

So the tax payers bailed out the banks and are now billions in dept and one would think the banks would be grateful. No instead the bankers have raised the interest rates on our credit cards and continue to throw families out on the street and profit from it with taxpayer money.

Who has done this?
the US Congress and President.

U.S. ATTACKED

HIJACKED JETS DESTROY TWIN TOWERS AND HIT PENTAGON IN DAY OF TERROR

A CREEPING HORROR

Buildings Burn and Fall
as Onlookers Search
for Elusive Safety

By N.R. KLEINFELD

It kept getting worse.
The horror arrived in sporadic bursts of chilling disbelief, signaled first by trembling floors, sharp ringtones, cracked windows. There was the actual unfathomable realization of a gaping, flaming hole in one side of the tall towers, and then the same thing all over again in its twin. There was the merciless sight of bodies helplessly tumbling out, some of them in flames.

Finally, the mighty towers themselves were reduced to nothing, these pillars of smoke raced through the devastation, arched, coursed, between the buildings, shaped like vortices on their sides.

Every sound was cause for alarm. A plane appeared overhead. Was another one coming? No, it was a fighter jet. But was it friend or enemy? People scrambled for their lives, but they didn't know where to go. Should they go north, south, east, west? Stay outside, go indoors? People had been in cars and each other. Some contemplated jumping into the river.

President Vows to Exact Punishment for 'Evil'

By SERGE SCHIRMANN

Ripshocks slammed jetliners into each of New York's World Trade Center towers yesterday, toppling both in a hellish storm of ash, glass, smoke and leaping victims, while a third jetliner crashed into the Pentagon in Virginia. There was no official count, but President Bush said thousands had perished, and in the immediate aftermath the calamity was already being ranked the worst and most audacious terror attack in American history.

The attacks seemed carefully coordinated. The hijacked planes were all en route to California, and therefore gorged with fuel, and their departures were spaced within an hour and 40 minutes. The first, American Airlines Flight 11, a Boeing 767 out of Boston for Los Angeles, crashed into the north tower at 8:48 a.m. Eighteen minutes later, United Airlines Flight 175, also headed from Boston to Los Angeles, plowed into the south tower.

Then an American Airlines Boeing 757, Flight 77, left Washington's Dulles International Airport bound for Los Angeles, but instead hit the western part of the Pentagon, the military headquarters where 24,000 people work, at 9:40 a.m. Finally, United Airlines Flight 93, a Boeing 737 flying from Newark to San Francisco, crashed near

United Airlines Flight 175, seen from the north tower, crashed into the south tower.

Senior Saudi Cleric OKs 10-Year-Old Girls for Marriage

Published January 14, 2009

Associated Press

A pan-Arab newspaper quotes Saudi Arabia's most senior Muslim cleric as saying it is OK for 10-year-old girls to marry, even if the girls' mother is against it. On Sunday, the government-run National Human Rights Commission condemned marriages of minor girls, saying such marriages are an "inhumane violation."

A look at most Islamic countries shows child marriage to be a common practice. Little girls are sold off to be sex toys to older M men often against mothers' objections. 100,000 girls a year are forced to have babies before their bodies are ready and then suffer vaginal festula (the vagina bursts into the rectum because the girl is too small to have a baby. This causes them to have a lifetime of incontinence with foul odor and having to wear diapers or rags. Most of these little girls are then abandoned by their child rapist husbands who by M law just need to say "I divorce you." to dissolve the marriage. Often these now disabled little girls are put out onto the street with no support. For verification see UNICEF web site. and do a Google search on child brides. Child protection laws are prevented from passing often because of objections of M imams who state that protecting little girls is against M law. For verification look at UNICEF and World Health websites.

According to the authorities, Abdulmutallab says he made **contact via the internet with a radical imam** in Yemen who then connected him with al Qaeda leaders in a village north of the country's capital. Authorities say they do not yet know if the imam was the same one who was in contact with Maj. Nidal Hasan prior to his alleged attack on soldiers at Fort Hood last month. American-born Anwar Awlaki has lived in Yemen since 2002 and is considered a major recruiter for al Qaeda by U.S. authorities. Authorities say the combination of the liquid in the syringe with the powder created the flash bomb, which was extinguished by passengers and air crew.

Michigan's unemployment rate is worst in the nation.

Byline: John Gallagher Nov. 25--Michigan has had it tough of late. The state has lost jobs for seven years running. The unemployment rate is the worst in the nation. Some recessions hurt Michigan more than others. In the 1982 downturn, Michigan saw its unemployment rate soar to 16.9% and new home construction drop to almost nothing.

Detroit Free Press

Sept. 20, 2007 Byline: John Gallagher

Michigan's jobless rate is highest since 1993

Michigan's unemployment rate, already the worst in the nation, took another bad turn during August. The state's seasonally adjusted unemployment rate has increased. It also marked Michigan's highest monthly rate in nearly 14 years. Since August 2006, the state's factories shed 24,000 manufacturing jobs, while the government sector lost 7,000 jobs.

PATRIOT WEEK PUTS FOCUS BACK ON OUR COUNTRY'S HISTORY

May 4, 2011

Oakland County Circuit Court Judge Michael Warren and his daughter Leah today testified before a House Committee in support of legislation designating Sept. 11-17 as Patriot Week in Michigan. The legislation, sponsored by state Rep. Gail Haines, encourages Michigan residents to honor America's first principles, founders, documents and symbols of our history. The idea for Patriot Week was developed by Judge Warren and Leah in response to commemorative holidays focusing on days off work and parades instead of honoring our history.

The commemorative week would begin on 9/11, a turning point in our country's recent past and end on September 17, which is the day the U.S. Constitution was signed.

Rep. Haines strongly supports the Warrens' vision to create a week in Michigan that will rejuvenate the American spirit.

"Patriot Week will help commemorate important milestones in our history that are often lost among parades and days off work," said Haines, R-Waterford Township. "I commend Judge Warren and Leah Warren for creating this important week and **hope we can permanently declare Sept. 11-17 Patriot Week to celebrate for years to come."**

The celebration of Patriot Week is an effort to teach Americans more about our nation's history that is often lost in existing commemorative holidays. Patriot Week will honor visionary American leaders that founded and advanced the United States including George Washington, Martin Luther King Jr., Susan B. Anthony and Abraham Lincoln.

House Bill 4464 is being considered in the House Committee on Military and Veterans Affairs and Homeland Security.

No time to raise taxes

byline Jim Jordan **After an unprecedented spending binge, apologists for big government once again want to raise taxes** to reduce the deficit. We've seen this before. In 1990, Republicans agreed to what liberals call a "balanced" deal -- for every \$1 in tax increases, Congress would cut \$2 of spending. But when the dust settled, **taxes and spending both went up**. The real cause of our debt problem is too much wasteful spending. Washington has an alphabet soup of bureaucracies that duplicate each others' work, often with dubious results: 47 job training programs and more than 100 for surface

transportation -- all funded with your tax dollars. Is it any wonder we've run \$1 trillion deficits the past three years and have a \$15 trillion national debt? Taxes should be fair. Source USA Today 14 Nov. 2011:. Infotrac

Christian Science Monitor

Dec 17, 2010. byline Gail Russell Chaddock

With big spending bill's demise, is 'earmark' new dirty word on Hill?

There was no last hurrah for **earmarks** - known to supporters as "congressionally mandated spending," and to critics as "**pork-barrel**" spending - as Senate majority leader Harry Reid on Thursday backed off plans to ram an earmark-laden spending bill through the Senate, before a House ban on earmarks takes effect. **Earmarks accounted for about \$8.6 billion of the proposed \$1.1 trillion omnibus for fiscal year 2011**, according to Citizens Against Government Waste, a watchdog group. Public outcries over millions for earmarks such as the so-called "bridge to nowhere" in Alaska have soured many voters and, increasingly, politicians on the practice. Moreover, new rules adopted by the current Congress require members to disclose earmarks they are requesting - a window that has made it much easier for watchdog groups to track such projects than in previous years. Within hours of the release of proposed omnibus bill this week, Citizens Against Government Waste and Taxpayers for Common Sense produced reports identifying **more than 6,000** earmarks and their sponsors. In 2006, the last year Republicans controlled the House, Congress hit a high for earmark spending, at \$29 billion. **In 2011 there was a \$1.1 trillion 'omnibus' spending boondoggle**

Christian Science Monitor 17 Dec. 2010. Infotrac

**THEY DID WHAT
WITH MY HARD
EARNED MONEY?**

**FIRE CONGRESS
BOONDOGLERS**

DEMAND ACCOUNTABILITY

DEMAND RESPONSIBILITY

Republican Rep. Paul Ryan, R-WI. announced the recipients of his first Budget Boondoggle Awards. The Ferry to Nowhere – a \$20-million earmark for a craft connecting the Alaskan communities of Anchorage and Port MacKenzie – serving a total of 40 residents.

-- The National Drug Intelligence Center's "jobs program" – a \$39-million earmark for a duplicative program that the President has sought to eliminate since at least 2005.

Honorable Mention went to the Omnibus Appropriations Bill with its \$18 billion in earmarks

To see details on more wasted billions visit <http://www.cagw.org/> click on the pig book and scroll down this is the site of Citizens Against Government Waste.

Also there are too many too highly paid government employees many making over \$100,000 a year. Congressmen get about \$200,000 a year in pay and benefits plus retirement. And they give themselves a multi thousand dollar raise every year. Yet they want to cut pay and benefits promised to our soldiers

U.S. Senator William Proxmire gave Golden Fleece Awards from 1975 to 1988 to highlight government waste of which some were: * Federal Aviation Administration for spending \$57,800 on a study of the physical measurements of 432 airline stewardesses, paying special attention to the "length of the buttocks" and how their knees were arranged when they were seated.

* National Institute on Drug Abuse (NIDA) funded project by psychologist Harris Rubin for \$121,000, on developing "some objective evidence concerning marijuana's effect on sexual arousal by exposing groups of male pot-smokers to pornographic films.

* National Institute for Mental Health for spending \$97,000 to study, among other things, what went on in a Peruvian brothel; the researchers said they made repeated visits in the interests of accuracy.

* Office of Education for spending \$219,592 in a "curriculum package" to teach college students how to watch television.

* United States Department of the Army for a 1981 study on how to buy Worcestershire sauce.

* United States Department of Justice for conducting a study on why prisoners want to get out of jail.

The above is only a drop in the bucket of the wasted billions of our hard earned money. What can we do about it. Tell your representatives and senators to stop wasting our money and to make cutbacks in government spending. The rich should have to pay their fair share of taxes. We need to keep informed of what is going on and demand action.

And the situation is even worse when you see what our congress and president have done. Look at the US Debt Clock at <http://www.usdebtclock.org/> Congress has been so stupid as to repeatedly borrow money from rich bankers and China to pay for unnecessary pork. You will find that the government owes a huge amount of interest (several trillion) to bankers and China because of their irresponsible actions. No wonder these rich bankers are getting richer and they pay almost no taxes. China is using this money to finance its military. **This is something that can be used against us. Congress and the President have been irresponsible in dealing with this and it has put our nation at risk.** Many countries demand payment in cash including the oil sources. If we can't pay them in cash, oil and other needed things will stop causing a massive nation wide shutdown. This is the terrible truth. Both the Democratic and Republican parties have become self serving money making machines and have failed the American people. But blaming is not fixing we need to fix this situation before there is a national crisis. Call them demand responsible positive actions now.

Above Warren's beautiful Warren Union Cemetery. Disrespectful vigilante members of Warren Historical Society, who do not own this cemetery or these markers, without a meeting or public hearing, ripped out five memorials (shown below) because the family didn't ask their permission and they couldn't take credit for them. They ripped Warren's only unknown soldier memorial off of the grave even though there is proof a soldier is buried there. Now he will be disrespected and forgotten because the name record is lost. Another memorial listed Warren area soldiers most of whom are buried here. Many of these soldiers do not have a marker anywhere else and this was the only marker showing the names of these soldiers. Should these brave soldiers be forgotten? These vigilantes have no right to steal a memorial that a family has donated to these soldiers who gave their lives and are buried here. Nothing was found wrong with these memorials in a public meeting held afterward. And what right have they to steal the memorial to all veterans and to those who died on attacks on our country and 9-11 and another that honors our flag and another that honors those many children and pioneers buried here without a marker? This act shows great disrespect to our soldiers and pioneers. Wouldn't it be a shame if the Warren Historical Society trashed these memorials in addition to giving our city a black eye. They were there to honor the fallen and educate visitors especially young people who no longer learn about history in school. They certainly were not hurting anything. There is lots of room for these stones. If you think it is wrong to steal a soldiers memorial out of a cemetery please send your opinion to wecare@macombhistory.us so we veterans can show we have public opinion on our side and request the Village Commission to have them returned. See documentation on cemetery pages.

Warren Veterans Partial List		Many Fought And Died In USA	
Warren Abel	Halsey, Silas	Stanley, James	Stevens, Ormal
Inglis, John W	Hartman, John	Tatro, Francis	Thimian, Edward
Civil War	Heiple, Jacob	Vantleet, Theodore	W. W. I
Benson, Ira F	Hoard, Levi	Unknowns	Alexander, Hugh
Berger, Nicholas	Jacob, Charles	W. W. I	Reddick, Lloyd F
Cole, William L	Kidd, Charles	Abbey, Otto J	Stevens, Merrill
Cook, John n	Lorenz, Ernst	Blonderl, Kaniel	Plus 100s More
Coxley, Oscar	Metro, Joseph	Ges, Henry B	Vietnam Era
Lawford, James	Moore, WM	Gietzen, Wm F	Arnold, Wesley
Stein, Frederick	Percira, Manuel J	Grimms, Edward	Plus 100s More
Emble, Benjamin	Opfer, Frederick	Jannus, Roger	Also Unknowns
Emble, Charles	Smith, John	Ruth, Neil W	More Will Die

All ripped out with great disrespect by "historical" vigilantes

The show is yet to begin
on a Wonderful Future.

For All Citizens

There is much more history, to be seen at macombhistory.us. This book was just a summary of parts of Wes Arnold's twenty volumes on the website or companion DVD. Because the humble historian is old and not long for this world and on social insecurity he did not have funds to have this printed. He gave it out a copy at a time and asked people to make more copies and give them to others. (a pay it forward) This summary has value because it presented history and other important things left out of other books. History should be a learning tool to help all, particularly young folks learn from, to avoid mistakes and to improve the well being of everyone in the community.

History should be used with a questioning attitude of how can we improve. One Example: Is our environment now of only crowded city and pavement better than a planned mixture of housing, with a few park/farms where some of our food could be safely produced locally while cleaning the air and reducing noise and providing children with a better environment? Our city has grown without intelligent planning for the welfare of all citizens especially children. The better future has to be intelligently planned not decided by special interest groups and folks just interested in making money. Efficient, weather free, inexpensive, quick, mass transit can be put underground together with perfectly climate controlled tornado safe shopping malls as in Toronto. These could include easy to get to offices, businesses and perhaps some schools. Even year round temperature means reduced costs in heating and cooling. Replacing concrete above ground could be beautiful areas with trees, flower filled meadows and ponds, with supreme natural beauty. With a good mass transit underground tube system anyone in the area could go anywhere quickly, cheaply and without driving, or parking hassles. There would be no snow or ice hassles. and less traffic, less jams, less accidents. This can be created while creating jobs. Change welfare into workfare and offer training and jobs to everyone not working also use free prison workers. Or would you prefer to continue to spend \$35,000 a year to coddle criminals with better health care than we have, cable TV, weight rooms, free legal services and conjugal visits all at your expense and have them put out without rehabilitation to commit more crimes against you. We are all sentenced to a life of work why should they get a free ride on us. While they are at it they should install solar shingles and panels and insulation on every home and building in the city to make us energy independent and add Geo-thermal heating causing great savings to all in energy costs. How about a tall sky tower with solar panels and wind turbines to generate electricity, with a restaurant high up with reasonable prices for everyone. Buildings could also trap and store rain water like they did in the old days for use in the sanitary system saving us more money. More medical research is needed to save lives. Law creation, enforcement, court and prison systems need to be brought up to date and made efficient. Special interest groups, private, banker and corporate greed needs to be regulated for the benefit of all citizens. We are tired of being ripped off. All utilities including phone and cable should be non profit. Stop waste in government spending and salaries. No government, corporate, or banking officer should be allowed to make more than 10 times that of the lowest paid worker. Require congress to have to abide by all laws it passes with no special treatment, medical or pensions. We need to start planning for a better future and making it happen, not just finding fault.

The Village Commission should return the memorials that 8 member social clique "hysterical" society vigilantes (who do not own the cemetery or the memorials) stole out of our cemetery. Those memorials were donated to our Warren men who died or served our country most of which are buried there. One was the only memorial that named our soldiers who have no marker anywhere else. Nothing was found wrong with the memorials at a public meeting nor were they hurting anything. No one has the right to steal a memorial donated by a family to a soldier out of a cemetery. There is lots of room for the memorials there. Those vigilantes have disrespected our servicemen, and those who died on 9-11 (because they ripped out that memorial and the Unknown Soldier Memorial off of the grave also). They have given the city a black eye.

Spaceship Earth

DO GOOD
WHILE YOU
STILL CAN
BEFORE
ITS TOO LATE

PAUSE FOR A MOMENT AND ASK “WHAT IS REALLY IMPORTANT.”

Can the soldier in the coffin above take his money with him or benefit from the freedoms he has secured for us? Will he be forgotten and left without a marker?

Does any one of you know how long you will live or even if you will live to see the next year?

Ask yourself what are the best things I can do to help my community?

When historians look back at a persons life for what was important it is not how much money or things they got for themselves but rather what good they did for the community that is counted as important.

The wise person learns from history to create a better future. Ignorant folks ignore history, current events and reality. Many folks live in fantasy while ignoring a world of opportunity. Look for opportunities. Think positive. We also need to be informed and aware of threats and to be prepared to deal with them. Many died or were made slaves because they didn't. And it is going on all over the world today and here.

There are a few things that our community needs. First is a code of conduct for all humans. We need it to become the expectation and the legal and moral norms for all humans. It should be that One should not do to others what one would not want done to himself. Those who grossly violate it by purposely taking lives or becoming a career criminal should be dropped off on an unrecorded deserted pacific island where their antisocial behavior will no longer threaten us. This also has the benefit to us not spending \$35,000 a year to support them with food, housing, medical care, legal services etc.

Lesser criminals should be sentenced to jail but made to do public service work such as mowing, clean up, construction of needed housing, solar panels, mass transit tunnels, installing insulation and other jobs. In this way they learn occupations and are paying their dept to society rather than us supporting them. We are sentenced to a life of work and they shouldn't be getting a free ride.

We need to both require and provide a quality education for youth not the shoddy inadequate incomplete sorry excuse now being passed off as an education. Graduates now learn less than what was taught in a one room school in 1880. Students spend too much time goofing off in school. They should be required to pass final exams to earn a diploma that actually means something. Now many can't even give correct change without a calculator. They learn little in school now. They should also learn basic History, Geography and modern technology. They should be given the opportunity to attend a summer boot camp with occupation training. They could select an occupation and get at least entry level training in it and then be given the opportunity to work in it as public service for at least a few months. This would provide youth with needed experience and at least qualify them for basic level of an occupation.

Those citizens out of work should be offered job training and job opportunities. The government can be the employer of last resort. That pay check supports a family, eliminates welfare, helps the economy and the taxes pay it back over time.

We need to help all citizens in need with needed medical care, workfare not welfare and fathers required to support their children. Everyone should do their fair share to support themselves. We can create ample for all and a better life for all. We need mass transit, more green areas, gardens, a few horses, less cement, more use of solar panels for roofs and much better planning for a better future for all.
